**Updated 2013 by:
Emily Smith and Meridith Foley, Social Work Interns, Transition Services**

***List updated in April 2013. The organizations are for your reference only. Inclusion on this list does not constitute an endorsement by the Bellmore-Merrick Central High School District.**

Introduction

This Recreation Packet was designed to provide information on the large amount of valuable recreation programs that take place year-round- including during weekends, summer, and vacation. The extensive variety of athletic, creative, vocational-focused, socialization, and academic activities provided for young adults with disabilities offer great opportunities to fulfill the very important recreational needs for our students.

This up-to-date resource book provides an overview of the programs offered, location and contact information, age ranges of participants, cost- if one exists, and links to more extensive information on each program.

Please use the table of contents to find particular programs that may be of interest to your child or browse through the whole packet to discover the great assortment of recreational activities designed to help enrich our student's lives.

Special Thanks

We would like to extend our thanks and appreciation for the continued contributions and support from the following:

Camp Huntington is a summer recreation program for the learning & developmentally disabled. At Camp Huntington, the goal is to allow each camper to be the best that he/she can be. This camp offers 3 distinct, specially designed programs to meet the needs of a wide variety of special needs children. The programs contain specific approaches that address key social, emotional & environmental issues for each disability group. The camper programs are blended together within groups & on campus to encourage positive social & emotional exchanges between campers.

Resources: summer camp, 3 programs (described below)

Population: Serve those with Learning & Developmental Disabilities, ADD/HD, Autism Spectrum Disorders, Asperger's, PDD, & other special needs.

Fee: Single-Rate all-inclusive tuition starts at \$2,150 per week (includes many extras, but does not include extra supervision fees for behavioral or physical support),

Discounts are offered for campers attending for 3, 6 or 9 weeks.

Recreation and social skills development for children with Learning Disabilities/ ADD/HD

Description: The recreation program is specifically designed for children & teenagers with learning disabilities, ADD/ADHD & neurological impairments. Campers participate in a variety of daily activities which are much like those offered at a camp for the non-disabled. Counselors use the recreational activities as a means of remediation for attention, memory, & perceptual disabilities. The learning & organizational strategies being taught at home & in school are reinforced in a fun & relaxing environment.

Independence for the Developmentally Disabled

Description: The independence program is designed for 2 purposes. The first is to provide the developmentally delayed with access to quality summer camp experiences. The second purpose is to begin the process of instilling campers, at an early age with a sense of independence.

Participation for children with Autism, Asperger's and Pervasive Developmental Disorders.

Description: Camping offers a great deal to children with Autism, Asperger's, or other Pervasive Developmental Delays, who benefit from the positive structure of our program. This individualized & structured program provides activities that allow campers to feel secure. Each activity is developed to assist children with communication & participation. Campers are introduced to new skills & activities, in a precise & consistent manner. Children are encouraged to participate positively with counselors & fellow campers. Appropriate interaction is rewarded with praise or a favorite activity.

Camp Ramapo is a special needs summer camp serving children ages 6-16 with a wide range of emotional/behavioral challenges, including children on the Autistic spectrum. This summer camp is ideal for youth who benefit from increased structure & supervision. The program is focused on the development of positive social & self-help skills, forming productive relationships, & having fun in a safe & well cared for environment.

Camp Ramapo is an inclusive environment purposefully designed for children having difficulty building and maintaining healthy relationships with peers and adults. The daily program and activities are carefully structured to meet the needs of fragile children who can benefit from a higher-than-average level of supervision, an engaging environment, and a character-building curriculum, all of which Ramapo provides.

Ramapo also serves high-functioning children with autism spectrum disorders who can successfully navigate the camp environment. This includes children with Asperger, Tourette, and Angelman Syndrome.

Ramapo for Children provides many challenging activities designed to promote confidence and build trust:

- Athletics including high and low ropes courses; hiking, orienteering and backpacking trips; swimming; canoeing and kayaking
- Arts and crafts, such as woodcraft and ceramics
- Additional activities including a reading center, miniature golf, a discovery center (science and nature) and chess

The Career & Educational Counseling Center (CECC) has been in existence for 19 years. We provide assistance to New York State school districts in meeting their transitional service needs. In continuing to meet the needs of students and to minimize any form of regression, we provide our Vocational/Life Skills program throughout the summer months.

Our summer services enhance pre-vocational skills to assist students in the development of pre-employment activities/skills and behaviors necessary for work. The program also incorporates life skills to increase awareness of the skills necessary for independent living. Students will be involved in community work experiences, develop social skills and learn how to travel by public transportation, as well as be part of an instructional classroom setting.

Resources: Hands on community experience, travel training, life skills training, money management, and more.

CHADD is a national non-profit organization, which is designed to assist individuals with AD/HD & their families. CHADD has over 11,000 local chapters around the country, which offer support for parents, adults with ADHD, educators, professionals, & others. They offer a 7-week parent-to-parent education program & operate the CDC funded National Resource Center on ADHD.

CHADD of Nassau County holds a meeting once a month to help our community better understand and cope with the wide scope of problems dealing with AD/HD. We provide support groups for parents of children with AD/HD and for adults with AD/HD where advice and coping skills are shared. Additionally, we provide educational workshops where professionals facilitate seminars on various topics discussing what AD/HD is, how to recognize it, and methods to help live productively, and cope with family and social relationships. These educational forums address both parenting and adult AD/HD issues.

The "Challenger" athletics program offers students with special needs the opportunity to be part of a school sports team, and to compete against neighboring districts. The current structure includes students, grades 7th thru 12th, and has both boys and girls on the same team. We have been part of this program for 3 years. This program has existed for a number of years before we learned about it and joined.

There isn't any type of "Sports Coordinator / Commissioner" for this league. Districts take care of creating their own teams and creating their own game schedules. There aren't any written policies, procedures and/or guidelines for this program.

CAE is a program designed with you and your family in mind. The Children's Athletic Enrichment program hires 1:1 to work with young children on the spectrum.

The Lion's group of Port Washington has set it's sights on helping those who can't help themselves; to that end we have developed CAE (Children's Athletic Enrichment), balancing the rigorous demands required to assimilate children diagnosed with Autism into our mainstream Daily lives. CAE offers an athletic addition to balance any existing ABA structured therapy. Our mission is to maintain the framework prepared by the home/office ongoing treatment structure incorporating modified Athletics. CAE also raises money to help families with financial need.

Let All The Children Play (LATCP) understands the need to promote inclusion through - sports and recreational play in our communities. We have developed meaningful programs especially designed for children and young adults, with or without disabilities, which will inspire truly inclusive environments.

The LATCP programs will be held at our **Universally Accessible Playground at Eisenhower Park in East Meadow**. The playground is a child's classroom. Through play, children learn to negotiate, communicate and learn to trust themselves and others by interacting physically, emotionally, and socially with their peers. While we would never deny a child entrance into a classroom, we routinely deny children with disabilities entrance onto a playground, as a majority of traditional playgrounds are physically inaccessible. Ultimately, children with disabilities are denied access not only to their social circle but also to the vital benefits of play: physical development, cognitive growth, and social development.

Mission: Dedicated to improving the lives and dignity of ALL children by developing Universally Accessible parks, playgrounds, and programs that allow children with disabilities to play side-by-side with their able-bodied peers, creating a truly integrated environment where friendship and acceptance can flourish.

Vision: To foster enriching experiences between children with disabilities and their able-bodied peers through the development of accessible playgrounds and inclusive programs.
